

Vince Thomson
Co-Director, MMM Program
Werner Graupe Professor of Manufacturing Automation
BSc, University of Windsor, Canada
PhD (Physics), McMaster University, Canada

Dr Thomson has 20 years research experience in manufacturing and information technology. He is the initial chairholder of the Werner Graupe Chair in Manufacturing Automation which promotes teaching and research in manufacturing.

The MMM Program is one of Dr Thomson's first initiatives performed under the Chair. His research interests include manufacturing processes and process management, including new product development and concurrent engineering. In the MMM Program, Dr Thomson teaches the Computer Integrated Manufacturing course and is responsible for the industry-related courses on case studies, seminars and work terms.
