

Health and Safety Leadership Centre.

The Conference Board's Health and Safety Leadership Centre (HSLC) supports the continuous improvement of healthy and safe workplaces. It is founded on the principle that effective health and safety leadership is essential to the operation of a successful business.

Participation in the Health and Safety Leadership Centre (HSLC) allows business leaders, governments, and academics to exchange best practices within a learning community and demonstrate their commitment to enhancing employees' physical, social, and mental well-being.

Our Commitment

The Conference Board of Canada is dedicated to leading this group by:

- conducting research on workplace health, wellness, and safety
- providing health and safety leadership in Canada
- working with partners to support existing health and safety initiatives
- hosting networking opportunities with senior health and safety professionals from across Canada

Who Should Join

We encourage senior executives from all sectors to join the Centre in order to ensure the most comprehensive dialogue. Optimum membership includes a wide range of decision-makers from all regions of Canada. Members may represent:

- businesses and employers
- labour organizations
- government ministries of labour and federal, provincial, and territorial policy-makers
- regional safety charters
- safety associations
- provincial workers' compensation boards
- industry associations/employers' councils
- post-secondary institutions

Exclusive Benefits of Membership

- Network with senior leaders from a range of sectors to learn and share best practices
- Promote an increased national awareness of health and safety issues
- Participate in a national forum that offers the opportunity to shape and transform perspectives on health and safety in Canada
- Guide original research that improves executives' capacity to respond to health and safety concerns
- Support efforts and initiatives to enhance the health and safety of all Canadians in the workplace
- Access complimentary research and webinar series
- Receive discounts (up to 50 per cent) on premium Conference Board webinars, conferences, publications, and workshops

“What makes Conference Board of Canada's Health and Safety Leadership Centre powerful is that it connects industry leaders, law makers, and educators from various sectors. Sharing of information and lessons learned is fundamental towards achieving event-free workplace. Bruce Power is a strong believer in achieving excellence in safety through situational awareness and hazard recognition. Through Health and Safety Leadership Centre, we as industry leaders have the opportunity to share the positive stories of what has worked for us. As we learn from one another about what did or could happen, we become better at building safer and healthier workplaces.”

Frank Saunders, Vice-President, Nuclear Oversight and Regulatory Affairs, Bruce Power

Levels of Participation

The chart below sets out the benefits available at each level of participation in the HSLC:

Membership Levels		Cost
Champion	As a Champion of HSLC, members have prominent branding displayed on all Centre research reports, participation in overall planning, direction and decision-making for the Centre, and participation in the core member advisory group, as well as the benefits of all other levels of membership below.	\$75,000/year
Partner	As a Partner of HSLC, members participate in strategic communication, have input into the overall planning, direction, and decision-making for the Centre, and participation in the advisory group, in addition to the benefits of all other levels of membership below.	\$24,750/year
Participant Government ministries and large organizations	As a government ministries and large organizations participant, members participate in all Centre meetings, provide suggestions for research topics, access to briefings, reports, and results upon publication, participate in communications planning, and receive acknowledgment in all Centre research reports.	\$12,900/year
Participant Not-for-profit and small business	As a not-for-profit and small business participant, members participate in all Centre meetings, provide suggestions for research topics, access briefings, reports, and results upon publication, participate in communications planning, and receive acknowledgment in all Centre research reports.	\$4,875/year

Research

The Health and Safety Leadership Centre has published the following research:

- Wellness Initiatives: Trends in Organizational Health Management
- Problematic Substance Use and the Canadian Workplace
- Running on Empty: Understanding Fatigue in the Workplace
- Domestic Violence and the Role of the Employer
- Is Health and Safety on Your Board's Agenda?
- Health and Safety—Views From the Top, a series that profiles the perspectives of senior leaders

Recent Events

As part of membership with HSLC, members participate in two meetings a year. Here are some of the recent events:

- October 2017—Canada's Safest Employers Awards 2017
- March 2017—Problematic Substance Use and the Workplace (conference) and Future Directions in Health and Safety (meeting)
- September 2016—Occupational Health and Safety in Canada: Perspectives From the Public and Private Sectors (meeting)
